Four

Four-wheel drive, also called 4×4 ("four by four") or 4WD, refers to a two-axled vehicle drivetrain capable of providing torque to all of its wheels simultaneously. It may be full-time or on-demand, and is typically linked via a transfer case providing an additional output drive-shaft and, in many instances, additional gear ranges.. A four-wheeled vehicle with torque supplied to both axles is ...

Roman Architecture

Roman architecture continued the legacy left by the earlier architects of the Greek world, and the Roman respect for this tradition and their particular reverence for the established architectural orders, especially the Corinthian,

is evident in many of their large public buildings. However, the Romans were also great innovators and they quickly adopted new construction techniques, used new ...
