A guide to learning independently

First published 1981, this third edition presents new information, techniques and ideas about effective study. Topics discussed include planning, making effective strategies for remembering, using libraries and other

sources of information and participating in discussion groups. Includes references and an index. The authors work at the Teaching and Learning Centre, Murdoch University, Perth.

Guiding Students to Be Independent Learners | Edutopia

Guide students to imagine how they will feel when they learn something new. Allow volunteers to describe their feelings after they learned something. When appropriate, ask students to visualize what a finished project will look like. Encourage students to tell a friend their learning goal and get their support.
