## Timberjack 230 manuals in Forestry and Logging

Hello, I am new to the forum, I bought a Timberjack 230 skidder with a detriot 353 in it, its from the seventies. I have the serial number (782157) and am wondering if it's a 230D or not. I was able to find the operators manual for 200 d series. But I look through it and my machine is a bit different on the controls.

Need a service/repair manual and parts manual for my Timberjack and having ZERO luck. Hoping one of you can point me in the right direction. I have tried John Deere (both online and spoken to a "reference librarian" on the phone) but they don't have the manuals for my model - said they'd get back to me if they could find anything. Not holding my breath.
